

Corporate Fact Sheet

Overview:

Animatics Corporation is the global leader in integrated motion control. Animatics is located in the heart of Silicon Valley and designs, manufactures, and markets motion control products and systems, and has over 23 years in the motion control industry.

Animatics' integrated servos, or the SmartMotor™, linear actuators and control electronics are used in a variety of industrial, medical and defense applications including factory automation, flight simulation and camera and weapons stabilization. Animatics' products solve a broad array of challenging problems, particularly when multi-axis coordination is essential. In May of 2011, Animatics was acquired by Moog, Inc. as a part of the the Moog Components Group.
