

## CBLSM1-3M

**Power and Communications Cable for Main 7W2 Connector on Moog Animatics SmartMotor™**

**CBLSM1** series is the main power and communications cable consisting of a 7W2 main motor connector split out to a pre-wired RS-232 DB-9 connector to plug directly into any standard PC serial port.

The power is split off and has a connector that plugs into our enclosed frame power supplies.

### Standard Length

Part Number	Length
CBLSM1-3M	3 meters
CBLSM1-10M	10 meters

### Custom Length

Part Number	Length
CBLSM1-x	x (in feet)

**NOTE:** Communications Shield is connected at the DB-9 end, but NOT the motor end. The power cable is connected at the motor connector shell but electrically isolated from the any internal electronic components.
