

Main I/O connector Cable (Flying Leads) for DB-15 Connector on Animatics SmartMotor™.

CBLIO5V series is for all 5VTTL I/O, communications, Encoder output, and Control Power input (when needed for –DE option Motors).

The cable is organized in separately shielded twisted pairs to provide better noise immunity and lower emissions.

Part Number	Length
CBLIO5V-3M	3 meters
CBLIO5V-10M	10 meters

Note: The shields DO NOT have electrical contact with each other or the connector shell. This allows for proper grounding in the control cabinet or at termination point determined by user thereby eliminating ground loops.
